LESLIE EVERETT

Class Poem

We, the Seniors, the departing class of nineteen fifty-eight
Have known all along that leaving Bethel High would be our fate.

But now that the time has come, each of us, one and all
Wish that we never had to leave your dear, protecting wall.

Now we believe what others did many, many times remind
That our happiest memories we would most surely leave behind.

So we wish to say to you as we leave you this spring
That remembering you will always findest thoughts bring.

So, dear old Bethel High, we bid you a sad, but loving farewell.
May the future, as the past, treat you very, very well;

And may our future work prove to be a lasting tribute to you.
For, if we succeed, much of it will be rightly your just due.

Class History

The history of the Class of 1958 is actually a list of precious memories—memories of the many trips, plays, parties, and other wonderful times we have had together.

We remember the first grade. The year of getting accustomed. Getting accustomed to sitting still in class, to not talking without raising our hands, and to getting up our homework. Mrs. Katherine Adams was our teacher. She taught us to sing, read, print our names, and she even taught us how to make butter by shaking cream in a jar.

Miss Elsie Whitley was our second grade teacher. She taught us to write, and in the last half of that year she taught us to call her Mrs. Nicholson, for it was while she was our teacher that she was married. We can still remember the card with a picture of Niagara Falls on it that she sent to us while she was on her honeymoon.

Mrs. Margaret Renshaw guided us through the third grade. It was from her that we learned to multiply and divide.

In the fourth grade Mrs. Ruth Thomas taught us. She gave us our first taste of a modified demerit system. She kept our names in a row in the corner of one board, and when we got five marks by our name we had to sit in at recess, and for ten marks we received a paddling.

Miss Frances Warren was our fifth grade teacher. We took a trip to the milk plant in Tarboro that year. Also during that year we had our first classes in public school music with Miss Carawan as our teacher.

Our sixth grade teacher there was Mrs. Sylvia Jackson. It was from her that we received a very good basic understanding of history and of art. In the sixth grade we made bird booklets and a frieze on birds which Mrs. Jackson still proudly displays to our brothers and sisters.

Our seventh year in school holds many memories. It was in that year that we went to the State Fair on the new school activity bus, "Old Smoky," which was driven by our teacher Mr. William Berry. One of the most important things we learned from Mr. Berry was the ability to stick to what we thought was right. We also had a new music teacher in the seventh grade—Miss Louise Stewart. Under her leadership we participated in a very beautiful music festival in Farmville.

Many changes were in store for us when we entered the eighth grade. Instead of just one teacher, we had three. There was our homeroom teacher, Mrs. Jane Highsmith; our science teacher, Mr. Nicholson; and our history teacher, Mrs. Daisy Lee Latham. That year found us again in Raleigh; this time we took a tour of the city and then attended the Ice Capades. Our most precious memory of the eighth grade, though, is graduation night. We received our diplomas and were then fully prepared for high school.

In high school we had many teachers. In English there were Mrs. Whitehurst, Mrs. Selby, Mrs. Weeks, and Mrs. Watson. In history, Mrs. Latham. In math, Mr. Latham. In science, Mr. Nicholson. In agriculture, Mr. Dewar. In the commerce department there were Mrs. Dewar and Mr. Thompson. In home economics there were Mrs. Mayo and Mrs. Carson, and in French there was Mrs. Highsmith.

We have learned much, but it hasn't all been hard work. We take with us many memories of hard fought for victories on the basketball court, fun filled May Day programs, absorbing science symposiums, exciting typing contests, and Junior-Senior proms. These are but a few of the many wonderful memories—memories of our school days.

BOBBIE GARRENTON

Class Prophecy

I had recently moved to Washington and started doing some secretarial work for the F. B. I. I had been working hard all day and my mind kept leaving my work. Suddenly I started daydreaming. I began to wonder about my classmates and tried to recall what each one of them wanted to do when they graduated. I found myself in a daze and ten years in the future. Oh, how the years had flown.

I was drifting and floating and found myself traveling on a big air-liner. As I sat back, a small stewardess came up to me and said, "Is everything all right?" And who do you think it was? It was ALICE FAYE McKEEL. She said that SAMBO RAWLS was the pilot of the plane in which I was riding. I go up and went to the cockpit and there was Sambo. I questioned him about the other classmates. He said that many of them were living in New York where I was going. He also told me that he and Alice Faye would show me around when we arrived in the city.

When we landed we went into a bakery to get some doughnuts and coffee. The owner was none other than NORVELL JONES. We talked with Norvell and he said he was going to sell his bakery and become a scientist.

As we were going into town I glanced at one of the most gorgeous homes and found it to be the home of ANN RIDDICK. We went in to visit her. As I was sitting in the living room I heard cries so I walked into the bedroom and found to my surprise that Ann had twin girls.

That night Sambo took me to one of the largest theaters. I was just in time to hear CLYDE CANNON, a soloist in our glee club back in 1958.

My visit in the city would not have been complete if I had not visited the schools. After browsing around the building for quite a while, I discovered that three of my former high school classmates were members of the faculty. I just had to visit their classrooms and see what a wonderful job they were doing. BOBBIE GARRENTON was the chemistry and physics teacher. SUE TAYLOR and JUDY WHITEHURST were primary teachers. I really enjoyed my visit to the school.

Being exhausted, I went to my room and went to bed. The next morning I was ready to see more of the city. As I was walking along the streets I happened to buy a newspaper from a little boy and then I saw the headlines: First Rocket Ship Being Launched to the Moon and who do you think was going on it? TOMMY WHITEHURST. I started thinking how long Tommy had been wanting to make this trip. Now his time had come. Gee, he must be happy.

I kept walking down the street and I happened to meet VERA WARREN. Vera asked me to go up to her house. She had one of the most beautiful homes. Vera said she had become a housewife as soon as school was out and was now a mother.

That night I went to a professional basketball game. There I saw LONNIE AYERS making the points for his team just as he did when he was playing for Bethel High. After the game was over I talked to Lonnie and asked him about BILLY ANDREWS. He said that Billy was living in Alaska trapping furs during the winter and in the summer he comes back to Bethel and is a game warden. Just as I was leaving the auditorium I thought I saw someone across the street whom I knew. As I started across the street I was struck by a car. I woke up in the hospital under the care of Dr. JOHN WHITEHURST. I hardly knew where I was and didn't know how I got there. He said I'd soon be able to go home. The nurse handed me a magazine with a beautiful cover. As I turned the pages of the magazine I found many beautiful pictures. Who do you think drew them? BILLY JARRELL. The write up said that Billy had exhibited his works in a large art gallery.

My dream was coming to an end. Someone was calling me. It was time for me to begin my work, but I wonder—could my dream be a reality?
